

Forwarding your Army.mil email to another *.mil* or *.gov* official email address

Presented by: Michael J. Danberry

Last update / review: 09 April 2023

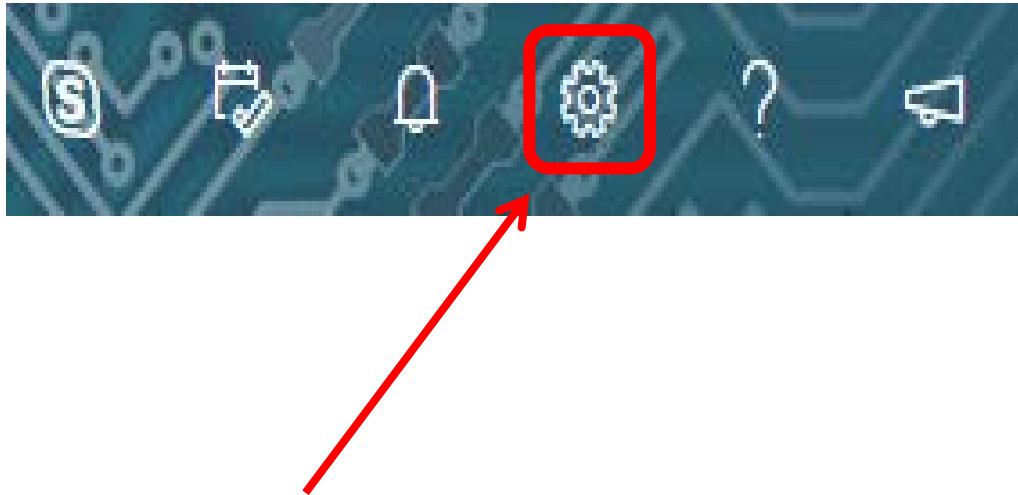

Follow this guide to set up automatic forwarding of your @army.mil email to another .mil or .gov email address, eliminating the need to check multiple email accounts to read and respond to your email.

NOTE: IF this other .mil email address is on your CAC, this will not work, until you change the email address on your CAC to @army.mil

You must be logged into your @army.mil website to follow the rest of this guide <https://webmail.apps.mil>

Please check for the most current version of this presentation at:
http://militarycac.com/files/forwarding_ArmyMail.pdf

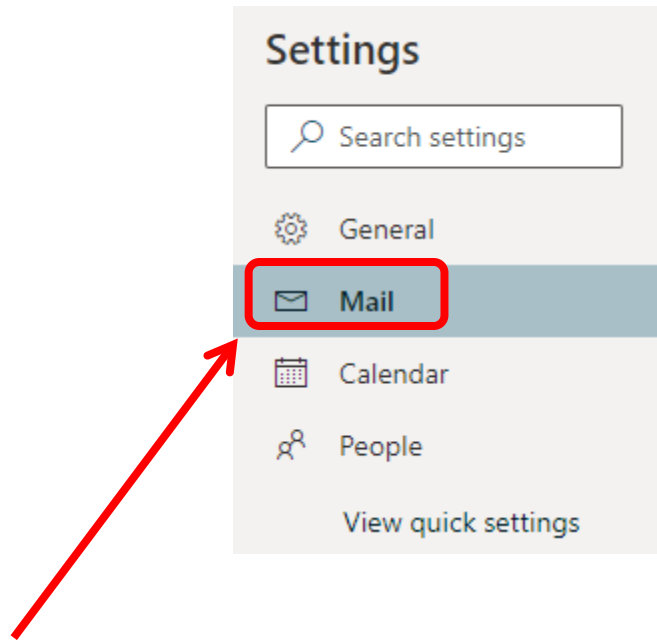

Click the Gear icon in the upper right corner of the page

Click *View all Outlook settings* in the lower right corner of page

Select *Mail* on the left column

1. Select forwarding
in center column

- Sweep
- Junk email
- Customize actions
- Sync email
- Message handling
- Forwarding**
- Automatic replies
- Retention policies
- S/MIME

2. Select the box titled: *Enable forwarding*

Forwarding

You can forward your email to another account.

Enable forwarding

Forward my email to:

michael.j.danberry.mil@mail.mil

Keep a copy of forwarded messages

3. Type your other .mil or .gov email
address in the box.

Click *Save* at bottom of page

Click the *X* in the top right to close window

You are now complete. Send an email to your @army.mil email address and verify that you get it at your other .mil or .gov email address

NOTE: You will want to occasionally visit <https://webmail.apps.mil> and make sure all of your emails are being forwarded and deleted. Some emails that are not directly sent to you (example.. to a distribution list) may not forward automatically.
